#### **About the Forest**

The Mendocino National Forest, Berryessa Snow Mountain National Monument (BSMNM) includes 197,214 acres of the Mendocino National Forest and 133,566 acres of Bureau of Land Management (BLM) land. On the Forest the Berryessa Snow Mountain Monument includes areas north of Clear Lake and Indian Valley Reservoir, extending through the Snow Mountain Wilderness and reaching northwest to the eastern boundary of the Yuki Wilderness.

The Forest straddles the eastern spur of the Coastal Mountain Range in northwestern California, just a 45 minute drive west of Chico, 1 hour north of the Sacramento airport and a three hour drive north of San Francisco. The Forest is 65 miles long and 35 miles across. The Forest's 913,306 federally owned acres of mountains and canyons offer a variety of recreational opportunities - camping, hiking, backpacking, boating, fishing, hunting, nature study, photography, and off-highway vehicle travel. The monument does not change current tactics or impact the suppression of wildfire.

All future management will continue to focus first on public and firefighter safety while taking actions to protect valuable resources. The Mendocino consists of 6 counties, and cooperates with numerous Federal, state, county, and city fire agencies. Complex fire management activities and high value resources at risk from wildfire provide excellent opportunities to develop diverse wildland fire skills. <http://www.fs.fed.us/r5/mendocino/>
